Se realiza accion sobre el elemento By.xpath: //button[@id='addNewRecordButton']

The screenshot shows a low-code development environment. On the left, there's a sidebar titled "Elements" with a list of UI components: Text Box, Check Box, Radio Button, Web Tables, Buttons, Links, Broken Links - Images, and Upload and Download. An "Add" button is at the top of this sidebar. In the center, a modal window titled "Registration Form" displays a form with fields for First Name, Last Name, Email, Age, Salary, and Department. A "Submit" button is located at the bottom right of the form. To the right of the modal, there's a search bar and some trash bin icons. At the bottom of the screen, there's a footer with navigation links like "Previous", "Page 1 of 1", "10 rows", and "Next". On the far right, there's a promotional banner for "Free Low-code Test" with a "Start Free Pro" button.

Se realiza accion sobre el elemento By.xpath: //input[@id='firstName']

This screenshot is identical to the one above, but it shows the result of an action being performed on the "First Name" input field. The word "Diego" has been typed into the field, and the input field is highlighted with a blue border. All other elements of the registration form and the surrounding interface remain the same.

Se realiza accion sobre el elemento By.xpath: //input[@id='lastName']
